EDUCATION

Master of Science in GIScience and Geoenvironment

Western Illinois University, Macomb, IL | **Expected:** May 2026

Bachelor of Science in Geomatic Engineering

Kwame Nkrumah University of Science and Technology, Kumasi, Ghana | **Graduated:** June 2019

TECHNICAL SKILLS

- **Survey & Field Operations:** AutoCAD, Total Station operations (Sokkia), Boundary and topographic surveying, GNSS/GPS data collection (Topcon), Survey data processing, ArcGIS Field Maps, Survey123
- **GIS & Spatial Analysis:** ArcGIS Pro, ArcMap, ArcGIS Online, QGIS, Cartographic design & map production, Parcel and cadastral data management
- **Data Analysis:** Python for GIS, SQL (Joins, aggregations, subqueries, data extraction)
- **Project Management:** Team Leadership, Training & Mentorship, Report Writing

WORK EXPERIENCE

GIS Center Intern / Trainee

Western Illinois University, Macomb, IL | **January 2026 - Present**

- Converted raster floorplans and architectural drawings into CAD-compatible formats for indoor mapping projects (Illinois NextGEN 911).
- Digitized building layouts and spatial features to support indoor navigation and geospatial modeling.
- Ensured spatial accuracy and proper coordinate alignment during raster-to-vector conversion processes.
- Integrated CAD outputs into GIS platforms for spatial analysis and mapping applications.

Assistant Geomatic Engineer

Lands Commission, Ghana | **December 2021 - August 2024**

- Led a field team in establishing and verifying regional survey control pillars to support cadastral and boundary mapping activities.
- Conducted boundary, cadastral, and topographic surveys using GNSS and total station equipment.
- Processed and analyzed spatial datasets in AutoCAD, ArcGIS & QGIS to support land registration and parcel verification

- Prepared and reviewed survey plans to ensure compliance with regulatory and cadastral standards.
- Trained in drone flying for data collection and imagery analysis.
- Integrated field survey data into GIS systems to improve spatial data accuracy and accessibility.
- Collaborated with cross-departmental teams to resolve boundary discrepancies and update parcel records.
- Assisted in training junior staff and interns in survey and GIS workflows.

Land Surveyor

Keda Ghana Ceramics, Takoradi, Ghana | **October 2020 – November 2021**

- Survey and setting of building details such as walls, columns, topographical survey of main and adjoining drains, Setting Out locations for general pile foundations, levels, and slopes, earthwork/volumes.
- Managed control point establishment and survey pillar installation to support construction accuracy.
- Supported recruitment efforts by interviewing survey candidates and leading technical onboarding focused on Topcon GNSS operations, construction site layout, and survey data quality control.
- Coordinated with engineers and project managers to ensure accurate alignment and elevation control.
- Designed and implemented team incentive programs to improve field performance, accountability, and project delivery efficiency.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Spatial Data Science: The New Frontier in Analytics (Esri Mooc)
- Python for Everybody – University of Michigan (Coursera) – In Progress
 - Learning Python Fundamentals, data structures, and database integration
 - Developing scripts for data processing and automation
- Databases and SQL for Data Science – IBM (Coursera) – In Progress
 - Writing SQL queries (SELECT, JOIN, GROUP BY, subqueries)
 - Working with relational databases and data extraction

PROJECTS

- Exploring the Nexus between Robberies and Social Disorganizations: A Spatial Analysis Approach for Chicago, Illinois
- GIS-Based Multi-Criteria Decision Analysis for Emergency Evacuation Shelter Site Suitability in Flood-Prone areas, Louisiana
- Monitoring urban growth and land use change with GIS and remote sensing techniques
